

#### Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II

# SAFETY DATA SHEET

**Central Heating Boiler Noise Silencer F2** 

## SECTION 1: Identification of the substance/mixture and of the company/ undertaking

1.1 Product identifier	
Product name	: Central Heating
Product code	: 56602
Product description	: Not available.
Product type	: Liquid.

## ting Boiler Noise Silencer F2

Liquia.

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Restricted to professional users.

#### 1.3 Details of the supplier of the safety data sheet

F S S E C T	Alpha, Alent plc Forsyth Road Sheerwater Voking Surrey England GU21 5RZ Fel: +44(0)1483 758400 Fax: +44(0)1483 728837	Manufacturer	: Alpha, Alent plc Koenendelseweg 29 5222 BG 's-Hertogenbosch The Netherlands Tel: +31 73 6280 111 Fax: +31 73 6219 283
Contact person : s	shosken@alent.com		
Emergency phone:			

Material uses : Water-boiler treatment.

## **SECTION 2: Hazards identification**

2.1 Classification of the su	bstance or mixture
Product definition	: Mixture
Classification according	to Directive 1999/45/EC [DPD]
<u>Europe</u>	
The product is not classifie	ed as dangerous according to Directive 1999/45/EC and its amendments.
Classification	: Not classified.
<u>Denmark</u>	
The product is not classified	ed as dangerous according to Directive 1999/45/EC and its amendments.
Classification	: Not classified.
<u>Norway</u>	
The product is not classified	ed as dangerous according to Directive 1999/45/EC and its amendments.
Classification	: Not classified.

## **SECTION 2: Hazards identification**

See Section 16 for the full text of the R phrases or H statements declared above. See Section 11 for more detailed information on health effects and symptoms.

#### 2.2 Label elements

Hazard symbol or symbols

Indication of danger Risk phrases Safety phrases Hazardous ingredients Supplemental label elements

Other hazards which do

not result in classification

: Irritant

- : This product is not classified according to EU legislation.
- : S37- Wear suitable gloves.
- : 1,2-benzisothiazol-3(2H)-one
  - : Not applicable.
- 2.3 Other hazards

: None known.

## SECTION 3: Composition/information on ingredients

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Туре

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

[3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII

[4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII

[5] Substance of equivalent concern

#### **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

Eye contact	: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
Skin contact	<ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.</li> </ul>
Ingestion	: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.

## 4.2 Most important symptoms and effects, both acute and delayed

#### Potential acute health effects

Eye contact

: No known significant effects or critical hazards.

## **SECTION 4: First aid measures**

Inhalation	Exposure to decomposition products may cause a health hazard. Serious offects
initalation	: Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.
Skin contact	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.
Over-exposure signs/symp	u <u>toms</u>
Eye contact	: No specific data.
Inhalation	: No specific data.
Skin contact	: No specific data.
Ingestion	: No specific data.
4.3 Indication of any immedi	ate medical attention and special treatment needed
Notes to physician	: In case of inhalation of decomposition products in a fire, symptoms may be delayed
	The exposed person may need to be kept under medical surveillance for 48 hours.
Specific treatments	: No specific treatment.
SECTION 5: Firefigh	iting measures
5.1 Extinguishing media	
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: None known.
5.2 Special hazards arising f	from the substance or mixture
Hazards from the substance or mixture	: In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous combustion products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide nitrogen oxides metal oxide/oxides
5.3 Advice for firefighters	
Special precautions for fire fighters	<ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitabl training.</li> </ul>
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.

## **SECTION 6: Accidental release measures**

6.1 Personal precautions, pro	tive equipment and emergency procedures	
For non-emergency personnel	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel freentering. Do not touch or walk through spilt material. Put on appropriate person protective equipment.	
For emergency responders	Specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also Section additional information on hygiene measures.	18 for
6.2 Environmental precautions	Avoid dispersal of spilt material and runoff and contact with soil, waterways, dra and sewers. Inform the relevant authorities if the product has caused environm pollution (sewers, waterways, soil or air).	

#### **SECTION 6: Accidental release measures**

6.3 Methods and materials	for containment and cleaning up
Small spill	: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor.
6.4 Reference to other sections	: See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information.

## **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

7.1 Precautions for safe han	dling
Protective measures	: Put on appropriate personal protective equipment (see Section 8).
Advice on general occupational hygiene	: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
7.2 Conditions for safe storage, including any incompatibilities	: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.
7.3 Specific end use(s) Recommendations Industrial sector specific solutions	<ul><li>Not available.</li><li>Not available.</li></ul>

#### **SECTION 8: Exposure controls/personal protection**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

8.2 Exposure controls		
	: Good general v contaminants.	rentilation should be sufficient to control worker exposure to airborne
Individual protection measure	<u>s</u>	
Hygiene measures	eating, smoking Appropriate tec Wash contamir	brearms and face thoroughly after handling chemical products, before g and using the lavatory and at the end of the working period. Inhigues should be used to remove potentially contaminated clothing. Inated clothing before reusing. Ensure that eyewash stations and are close to the workstation location.
Eye/face protection	assessment inc dusts. If contac assessment inc	complying with an approved standard should be used when a risk dicates this is necessary to avoid exposure to liquid splashes, mists or et is possible, the following protection should be worn, unless the dicates a higher degree of protection: safety glasses with side-shields. It: None assigned.
Skin protection		
	be worn at all ti this is necessar	tant, impervious gloves complying with an approved standard should mes when handling chemical products if a risk assessment indicates y. < 1 hour (breakthrough time): disposable vinyl
Body protection	being performe	ctive equipment for the body should be selected based on the task of and the risks involved and should be approved by a specialist g this product. Recommended: None assigned.
Other skin protection	selected based	otwear and any additional skin protection measures should be on the task being performed and the risks involved and should be specialist before handling this product.

٦

## **SECTION 8: Exposure controls/personal protection**

Respiratory protection	: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. Recommended: None assigned.
Environmental exposure controls	: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## **SECTION 9: Physical and chemical properties**

Upper/lower flammability or explosive limits	:	Not available.
Relative density	1	Not available.
Solubility(ies)	1	Easily soluble in the following materials: cold water and hot water.
Partition coefficient: n-octanol/ water	;	Not available.
Auto-ignition temperature	1	Not available.
VOC content		40.2 % (w/w)

#### 9.2 Other information

No additional information.

## **SECTION 10: Stability and reactivity**

10.1 Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
10.2 Chemical stability	: The product is stable.
10.3 Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
10.4 Conditions to avoid	: No specific data.
10.5 Incompatible materials	: No specific data.
10.6 Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## **SECTION 11: Toxicological information**

#### 11.1 Information on toxicological effects

#### Acute toxicity

Acute toxicity			1		
Product/ingredient name	Result	Species		Dose	Exposure
-	LD50 Oral	Rat - Female	2001	mg/kg	-
Conclusion/Summary	Not available.				
Irritation/Corrosion					
Product/ingredient name	Result	Species	Score	Exposure	Observation
1,2-benzisothiazol-3(2H)-one	Skin - Mild irritant	Human	-	48 hours 5	-
				Percent	
Conclusion/Summary	: Not available.				
<u>Sensitiser</u>					
Conclusion/Summary	: Not available.				
Mutagenicity					
Conclusion/Summary	: Not available.				
Carcinogenicity					
Conclusion/Summary	: Not available.				
Reproductive toxicity					
Conclusion/Summary	: Not available.				
<b>Teratogenicity</b>					
Conclusion/Summary	: Not available.				
Information on the likely routes of exposure	: Not available.				
Potential acute health effects	<u>6</u>				
Inhalation	: Exposure to decomposition pr may be delayed following exp		e a hea	alth hazard. S	erious effects
Ingestion	: No known significant effects of	or critical hazards			
Skin contact	: No known significant effects of				
Eye contact	: No known significant effects of	or critical hazards			
Symptoms related to the phy	vsical, chemical and toxicologic	cal characteristi	<u>cs</u>		
Inhalation	: No specific data.				
Ingestion	: No specific data.				
Skin contact	: No specific data.				
Eye contact	: No specific data.				
Delayed and immediate effects and also chronic effects from short and long term exposure					
<u>Short term exposure</u>					
Potential immediate effects	: Not available.				
Potential delayed effects	: Not available.				
Long term exposure					
Potential immediate effects	: Not available.				
Potential delayed effects	: Not available.				
Potential chronic health effe	<u>cts</u>				
Not available.					
Conclusion/Summary	: Not available.				
General	: No known significant effects of	or critical hazards			
Carcinogenicity	: No known significant effects of	or critical hazards			
Mutagenicity	: No known significant effects of	or critical hazards	•		
Teratogenicity	: No known significant effects of	or critical hazards			

#### SECTION 11: Toxicological information

## **Developmental effects Fertility effects**

- : No known significant effects or critical hazards.
- : No known significant effects or critical hazards.
- **Other information** : Not available.

## SECTION 12: Ecological information

#### 12.1 Toxicity

Product/ingredient name	Result	Species	Exposure
1,2-benzisothiazol-3(2H)-one	Acute EC50 4.4 to 4.9 ppm Fresh water Acute LC50 10 to 20 mg/l Fresh water	Daphnia - Daphnia magna Crustaceans - Ceriodaphnia dubia	48 hours 48 hours
	Acute LC50 1.6 to 2.8 ppm Fresh water	Fish - Oncorhynchus mykiss	96 hours
Conclusion/Summary	: Not available.		

Conclusion/Summary

#### 12.2 Persistence and degradability

Conclusion/Summary	: Not available.
--------------------	------------------

#### **12.3 Bioaccumulative potential**

Not available.

12.4 Mobility in soil	
Soil/water partition coefficient (Koc)	: Not available.
Mobility	: Not available.

12.5 Results of PBT	and vPvB assessment
PBT	: Not applicable.

- : Not applicable.
- 12.6 Other adverse effects
- : No known significant effects or critical hazards.

#### **SECTION 13: Disposal considerations**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### **13.1 Waste treatment methods**

## **Product**

vPvB

Methods of disposal	: The generation of waste should be avoided or minimised wherever possible. Waste product residues should not be disposed of via the sewer but processed in a suitable effluent treatment plant. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.
Hazardous waste	: Within the present knowledge of the supplier, this product is not regarded as

#### hazardous waste, as defined by EU Directive 91/689/EEC.

#### European waste catalogue (EWC)

	Waste designation	
16 03 04 inorganic wastes other than those mentioned in 16 03 03	inorganic wastes other than those mentioned in 16 03 03	

Packaging

#### **SECTION 13: Disposal considerations**

#### Methods of disposal

: The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

```
Special precautions
```

 This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

## **SECTION 14: Transport information**

	ADR/RID	IMDG
14.1 UN number	Not regulated.	Not regulated.
14.2 UN proper shipping name	-	-
14.3 Transport hazard class(es)	-	-
14.4 Packing group	-	-

## **SECTION 15: Regulatory information**

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture <u>EU Regulation (EC) No. 1907/2006 (REACH)</u>

Annex XIV - List of substances subject to authorisation

Substances of very high concern

None of the components are listed.

		notod.
Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles	:	Not applicable.
Other EU regulations		
Europe inventory	1	All components are listed or exempted.
