

Product

INFBV28 - 28mm Flow Balancing Valve 4 - 40 L/min with G3/4" Fill & Flush

INFBV2850 - 28mm Flow Balancing Valve 10 - 50 L/min with G3/4" Fill & Flush

Technical Specification

Max Operating Pressure:	10 Bar
Max Operating Temperature:	110°C
Min Operating Temperature:	-20°C
Medium:	Water
	Water + Glycol >50%
Inlet Connections:	28mm Compression
Fill & Flush Connections:	G3/4" BSP

Additional Information

Regulates the flow of fluid through the system

Maximises heat collection in cylinders

Bi-directional ball valve stops water flow and allows access to fill and flush connection for servicing

28mm compression connections according to EN1254-2

G3/4" Fill & Flush connections with retained sealing cover caps

Clear window allows for easy adjustment of the flow rate

Suitable for use with water and up to 50% glycol solutions
